Brussels, Jan 1:

There has been a rise in complaints by consumers about their card that has not walking past you in the street. This is most alarming.

## EXCLUSIVE RFID theft on the rise

On investigation it was found that a new breed of thieves are responsible for such con is to our society that steal sensitive information's without us even knowing about it. The best way not to fall for such con is to use RFID blocking wallets and keep all your credit cards and sensitive ID cards etc in this. These wallets do not allow the scanner to read information clandestinely and has become a must safety for modern living. More and more smart people are using this device and it is becoming about an essential.
